

# Solement™

## Hybrid Cement Overlay

Tired of having too many steps with too many products that waste time and money? Solement hybrid cement overlay is the answer, as the **only** polymerized deck overlay that can be used on any concrete, new or existing. Solement is a simple, single just-add-water overlay system that provides a beautiful texture to pool decks, patios and other concrete areas. This product is highly unique, without separate base & top coat steps to achieve superior adhesion and durability.

### Key Features:

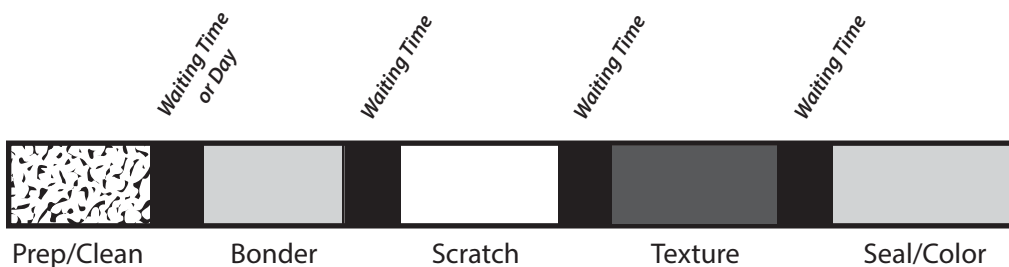

**Zero wait for curing - Apply to both new and existing concrete!**

**Simple - No separate materials for Base, Scratch, or Color Coats.**

**Use a single, integral Color Unit pack - just like Kool Deck® Elite.**

**Just use water - no complicated steps mixing other polymers.**

**Wet applied system, without waiting for concrete or components to dry.**

Conventional Polymer Overlay Process
